TAEKI PROTECTION

Taeki5 is a high performance composite fibre engineered from core material produced in Germany and introduced in South Africa exclusively by Dromex with Hand, Arm and Body protection in mind.

Taeki5 core material has been developed over the years as an unequal reinforcement material for the most demanding industries in the world. After years of R&D efforts, it is now available for your very own personal safety protection.

What protection?

Taeki5 brings you the following high level hand, arm and body protection:

- High Abrasion Resistance
- High Cut Resistance
- High Heat Resistance
- Lint Free
- No change of properties to light and UV exposition
- Keeps full properties after numerous washing and drying cycle
- Comfort and fitting
- Available in a variety of colour, coating and designs
- But also chemical, cold, impact, puncture and anti-vibration resistance

Which application?

We have developed a variety of styles to meet all industries needs in the toughest environment:

- General maintenance
- Sharp steel
- Glass handling
- Clean room application
- Mining and construction work
- Food processing, cold supply chain
- Electronic
- Military and police force
- Aeronautic and automotive
- Gardening and hunting
- All industries requiring the highest quality and lower cost of ownership

Which standard?

All our Taeki5 products meet the toughest quality, safety and environmental standards in the world:

- EN388 cut level 5
- ANSI/ASTM cut level 4 to 5
- EN388 / ANSI / ASTM Mechanical resistance standard
- EN407 / ANSI Heat resistance standard
- EN511 Cold resistance standard
- ANSI S3.40 / EN ISO 10819 Anti-vibration standard
- AS2001.5.4-2005 and ISO6330:2000 washing standard
- ISO 9001-2000 and 14001
- REACH EC 1907/2006
- FDA
